Education

University of Manchester, BSc Computer Science | Manchester, UK

Sept 2023 - July 2026

- Machine Learning, Artificial Intelligence, Data Structure & Algorithms, Distributed Systems, Software Engineering, Programming Languages & Paradigms

Experience

University of Manchester Students' Union, Student Research Assistant | Manchester, United Kingdom

November 2024 - present

- Conducting quantitative and qualitative research to generate actionable insights, driving strategic decisions on student engagement and policy.
- Designing surveys and data collection methodologies, analyzing cost-of-living trends, and producing insights for institutional strategy.
- Developing data-backed recommendations that improve student satisfaction and enhance the efficiency of Union campaigns.

Yelow Autofin, Associate Product Manager | Remote

July 2023 - Sept 2023

- Conducted market research to identify profitable opportunities, driving a strategic shift in product offerings.
- Optimized KYC processes to streamline document cross-referencing and ensure regulatory compliance.
- Facilitated the acquisition of key partnerships by integrating dealerships, NBFCs, and banks onto the company's platform.
- Leveraged ratings advisory insights from credit bureaus such as Experian and Equifax and account aggregators for comprehensive credit assessments, strategic product development, and debt financing initiatives.

PatilKaki- Shark Tank India, Marketing Executive | Mumbai, India

Mar 2023 - June 2023

- Implemented a customer-centric marketing strategy, driving an 88.89% revenue increase.
- Leveraged Hotjar analysis and GA4 data to reduce churn and enhance customer experiences.
- Developed extensive customer journey maps in conjunction with coordinated testing and solution-driven analysis to drive continuous improvements.
- Optimized marketing budget, cutting ad spend from \$900k to \$500k and achieving a 4.5 ROAS.
- Developed a data-driven customer retention strategy using email, WhatsApp, and SMS campaigns via the WebEngage CRM platform.

Societies

Manchester AI Club, President | Manchester, United Kingdom

October 2024 - present

- Led and scaled a student-led AI community to 200+ members within two months, enhancing engagement and strategic collaboration.
- Hosting a podcast series featuring academic and industry experts, effectively communicating complex AI concepts and career strategies to diverse audiences.
- Co-leading AI projects on Physics-Informed Neural Networks (PINNs) and The Inverted Pendulum Problem.

Accelerate ME, Program Associate | Manchester, United Kingdom

October 2024 - present

- Delivering technical guidance to early-stage startups, supporting MVP development and end-to-end project execution

MUTIS Ethical Investment Fund ("MEIF"), Technical Analyst | Manchester, United Kingdom

Mar 2024 - Sept 2024

- Researched and pitched technology sector companies, evaluating financial performance, sustainability metrics, and market trends to drive ethical investment decisions.
- Developed data-driven investment recommendations, leveraging Bloomberg Terminal and Capital IQ to assess risk, growth potential, and alignment with ESG principles.

Projects

Natural Language to SQL

- Built a model that translates natural language queries into SQL for stock market data retrieval using TF-IDF vectorization, rule-based matching, and deep learning (Keras, TensorFlow).
- Trained a multi-layer neural network with categorical cross-entropy loss, achieving precise SQL query generation and improving accuracy with rule-based query handling.

Speech Emotion Recognition

- Developed a CNN-based classifier for recognizing emotions in speech using MFCC feature extraction, trained on RAVDESS, CREMA-D, TESS, and SAVEE datasets.
- Implemented batch normalization, dropout layers, and learning rate scheduling to optimize performance, achieving 87% classification accuracy.

Skills

Technical

Python, C/C++, C#, Java, Matlab, Git, LaTeX, HTML, Gemini API, MongoDB, SQL, Tensorflow, Pytorch, Hugging Face, PowerBI

Non-Technical

Data Interpretation, Data Analysis and Reporting, WordPress, Facebook Ads Manager, Google Ads, Google Analytics, Microsoft Office Suite, Canva, Figma
